

## Spartan Omni-Gray

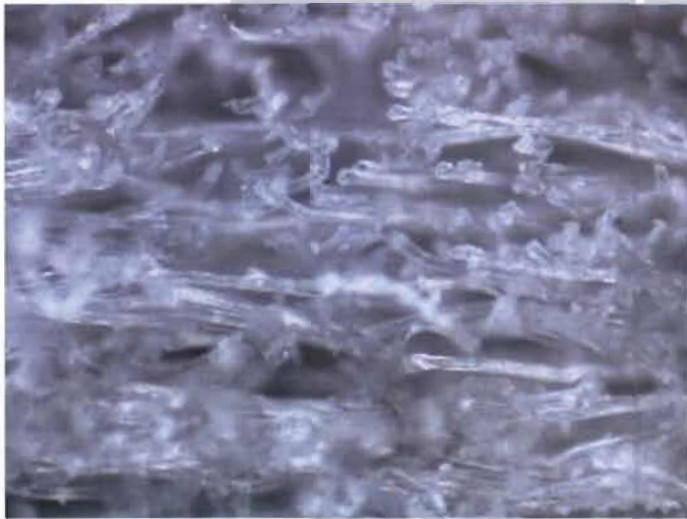

*Creatively engineered to conquer your surface preparation and polishing challenges.*

**Surface Preparation Division**

### DESCRIPTION

Spartan Omni-Gray is of fibrous non-woven material with excellent surface wear resistance, high liquid absorbing ability and good resistance to shear mechanical stresses. It has a textured gray appearance with micro voids for improved slurry distribution. Spartan Omni-Gray is a highly durable, cross functional pad.

### EXPERIENCE

Spartan Felt Company has approximately 40 years experience in the polishing and surface preparation industry. When you deal with Spartan Polishing Pad Division, you are assured of dealing with professionals who understand the polishing problems you encounter every day. Our experts don't stop until they have found creative solutions to help you.
